

# Elliott Smith, Angel In The Snow

I'd say you make a perfect  
Angel in the snow  
All crushed out on the way you are  
Better stop before it goes to far  
Don't you know that I love you  
Sometimes I feel like only a cold still life  
That fell down here to lay beside you

Don't you know that I love you  
Sometimes I feel like only a cold still life  
Only a frozen still life  
That fell down here to lay beside you
