

Elliott Smith, Independence Day

Future butterfly, gonna spend the day higher than high
You'll be beautiful confusion
Ooh, once I was you

I saw you caught between all the people out making a scene
And a bright ideal, tomorrow
Ooh, don't go too far
Stay who you are

Everybody knows
Everybody knows
Everybody knows
You only live a day
But it's brilliant anyway

I saw you at the perfect place
It's gonna happen soon, but not today
So go to sleep, and make the change
I'll meet you here tomorrow
Independence Day
