

# ELO, Heaven Only Knows

(Heaven only knows)

Oh, I know it's strange  
But I think that it's about to change  
So I'll take the chance  
To get back into the straight again.

Heaven only knows, I'm really on the level  
Heaven only knows, I'm trying to find a way  
Heaven only knows, I'm walking down a straight and lonely road today.

(Oh, yeah, heaven only knows)

Now the sun will shine  
And I'm gonna work it out this time  
And before the light,  
All I gotta take is one more night.

Heaven only knows, I'm really on the level  
Heaven only knows, I'm trying to find a way  
Heaven only knows, I'm walking down a straight and lonely road today.

Heaven only knows, heaven only knows  
Heaven only knows, heaven only knows  
Heaven only knows, heaven only knows  
Heaven only knows, heaven only knows.

(Heaven only knows)

As the hours go by,  
I can only wonder why  
You can change your mind  
But you never change the price.

Heaven only knows, I'm really on the level  
Heaven only knows, I'm trying to find a way  
Heaven only knows, I'm walking down a straight and lonely road today.

Heaven only knows, heaven only knows  
Heaven only knows, heaven only knows.

Heaven only knows, I'm really on the level  
Heaven only knows, I'm trying to find a way  
Heaven only knows, I'm walking down a straight and lonely road.

Heaven only knows, I'm really on the level  
Heaven only knows, I'm trying to find a way  
Heaven only knows, I'm walking down a straight and lonely road today  
Heaven only knows, I'm really on the level  
Heaven only knows, I'm trying to find a way  
Heaven only knows...
