

# Elton John, Love Her Like Me

You can take her  
Make her change her name  
You and your old money  
Dance around the flame  
But you can never, never love her like me

You can charm her  
Calm her when she's wild  
Show a little comfort  
Play with her inner child  
But you can never, never love her like me

So I just close my eyes and steal her away when you sleep  
Sneak her in my dreams every single day of the week  
You may have her in real world but if you could only see  
How we rock this room in the twilight zone  
And you can never, never love her like me

You can warm her  
Charm her with your style  
I know you convinced her  
She's the love of your life  
And no, you'll never, never love her like me

You can bless her  
Keep her conscience clean  
You can undress her  
Go all the places I've been  
But you'll never, never love her like me
