Elvis Presley, Where Do You Come From

Where do you come from? Tell me who you are Do you come from another world Or from some distant star?

Where do you come from? Are you what you seem? Are you real, are you standing there Or is it just a dream?

Tell me more about yourself Do you feel the way I feel? Are you just a vision Or are you really real?

Where do you come from? Angel won't you say? Tell me all that there is to know And tell me that you'll stay
