

# Em Beihold, Pedestal

When I put you on that pedestal  
I put you too damn high  
Can't see your face  
Stuck in the clouds  
You're in the sky

Now I'm hurtin' like I knew I would  
Feel like I wanna die  
I wish I had the words  
But all I do is cry  
I know you think it's ok  
To always have it your way  
Play me like a game of chess  
My king's in check and I'm a mess

I don't know how you did this  
Tore my walls down with one kiss  
I didn't mean to let you get this far

Because you know me  
And I can't be the one and only  
One that you mess with you in your free time  
Cuz you took over my goddamn mind

When I put you on that pedestal  
I put you too damn high  
Can't see your face  
Stuck in the clouds  
You're in the sky

Now I'm hurtin' like I knew I would feel like I wanna die  
I wish I had the words but all I do is cry

You're my first thought in the morning  
Guess that should've been a warning  
I cared too much until the death  
Wish that I had saved my breath  
Cuz I'm so far gone  
Don't know how I'll move on, move on

Because you know me  
And I can't be the one and only  
One that you mess with you in your free time  
Cuz you took over my goddamn mind

Ooooh

When I put you on that pedestal  
I put you too damn high  
Can't see your face  
Stuck in the clouds  
You're in the sky

Now I'm hurtin' like I knew I would feel like I wanna die  
I wish I had the words but all I do is cry  
All I do is cry (x4)
