Consider this picture perfect sweet sorrow
You've never been wrong before
As much as you wait, time won't wait for you
As much as you wait, I won't wait for you
Let me fly and pull away from you
You're always right
Time won't wait for you
You're always right so let me fight and pull away from you
And I said, I would try for you
This time tonight, I won't die
