

# Embodiment, K-9

hold this sanity within your hands  
demons tease and migrate, soar on wings  
but you my guardian angel pull me through

stay, darling  
giving up, giving in, kiss your lover

nylon barricades and window soul  
red cross meetings daily ground this root  
clever thoughts like you and me make us

stay, darling  
giving up, giving in, kiss your lover

stay  
I'll find you home  
be not far from me

roll the stone, the sun has brought the day  
cradle nothing in the arms of peace

break time, lather, ointments aren't healing
