

Embrace, You Don't Amount To Anything- This Time

I don't want to stay forever
Lift a hand to make you better
You don't amount to anything
This time
Give it in before you lose control again
And no we'll never be the same
You amount to nothing and you're never right

Say you feel the way I do
Everything is beautiful outside tonight
I know it's over, it's alright
You're gonna change
The way you say my name
It's for the best
For the rest of my life

You don't want to learn your lesson
Bow your head to someone better
Loneliness will have to see you right
Let me win before I lose control again
And know you'll never make the grade
You don't amount to anything
Not in my life

Say you feel the way I do
Everything is beautiful outside tonight
I know it's over, it's alright
You're gonna change
The way you say my name
It's for the best
It's for the rest of my life
