

Emeli Sandé, When Someone Loves You ft. Nile

Hard to describe what's happening
My heart it flies, my soul it sings
Found someone to hold who understands
To call my own, to hold my hand
Everybody say I'm walking different
Everybody say I'm talking different
And they wanna know what is going on,
I said none of your business
Before you came along I was battling the world alone
But now I got an angel beside me
Ain't it just the greatest thing
When someone loves you (loves you)
Don't it make you wanna sing
When someone loves you (loves you)
There's no other feeling quite like it
I just can't control my excitement
Ain't it just the greatest thing
When someone loves you (love you)
The stars align, you light my sky
Never before felt so alive
The birds they got new melodies
They love it when you're next to me
See the world is tough
Make you feel like you ain't good enough
Before I met you felt like I was running out of luck
But then you came along told me I'm not alone
Thank God I got an angel beside me
Ain't it just the greatest thing
When someone loves you (loves you)
Don't it make you wanna sing
When someone loves you loves you
There's no other feeling quite like it
I just can't control my excitement
Ain't it just the greatest thing
When someone loves you (loves you)
Dancing every day
You take my pain away
No feeling like you give
I'm full of happiness
Can't stop dancing
Dance the pain away
Ain't it just the greatest thing
When someone loves you (loves you)
Don't it make you wanna sing
When someone loves you (loves you)
There's no other feeling quite like it
I just can't control my excitement
Ain't it just the greatest thing
When someone loves you (loves you)
Ain't it just the greatest thing
When someone loves you (loves you)
Don't it make you wanna sing
When someone loves you (loves you)
There's no other feeling quite like it
I just can't control my excitement
Ain't it just the greatest thing
When someone loves you (loves you)
When somebody loves you
