

# Emerson Drive, One Of A Kind

Yesterday I decided to die today  
said the boy to his angel  
I don't know why they should cry today  
If I'm in their hearts it doesn't seem that way

The angel stared into those weary eyes  
saying Son you just don't realize  
The people you know do not always show  
the love they have for you will always be true

A voice from inside came crying out to me  
Asking friend why don't you talk to me  
I understand you're not just a great ascent

## CHORUS

You are one of a kind  
I call you my friends  
You are part of my family  
Your are my son  
I will love you forever

If you are his friends your life will never end  
said the angel to me  
His parting words will stay close to me  
Now that a soft voice has left the scene

I am the way, the truth, and the light  
No one come through the father except through me

I woke up early this morning  
without any signs or a warning  
My friends were all kneeling around me in prayer  
I remember my friend and the angel up there  
This is my family around me in prayer  
I have a love now that i must declare  
This is my family around me in prayer  
I'm part of a family in peace
