

# Emerson Drive, Say My Name

You read Grisham novels, I'd rather watch a movie  
Baby, we're like night and day Yeah  
You like frappacino, Leonardo DiCaprio  
I like Al Pacino and I take my coffee straight

It's no secret  
Girl, we're different  
It's not like we don't know  
Every single hesitation  
All Goes out the window

## CHORUS

When you say my name  
I can feel forever  
When you touch my face  
Girl, I feel invincible  
Nothing seems impossible  
I'm Superman  
You've got me flying high  
Baby say my name just one more time

You love Lenny Kravitz  
I've got to have Atlantis,  
Isn't it ironic you and me  
You wear Italian leather  
My polyester suits me fine  
It's inevitable we're gonna disagree  
It's no secret girl we're different

It's no secret  
Girl, we're different  
It's not like we don't know  
Every single hesitation  
All goes out the window

## REPEAT CHOURS TWO TIMES

When you say my name  
When you say my name  
When you say my name
