

Emerson Drive, Say My Name

You read Grisham novels, I'd rather watch a movie
Baby, we're like night and day Yeah
You like frappacino, Leonardo DiCaprio
I like Al Pacino and I take my coffee straight

It's no secret
Girl, we're different
It's not like we don't know
Every single hesitation
All Goes out the window

CHORUS

When you say my name
I can feel forever
When you touch my face
Girl, I feel invincible
Nothing seems impossible
I'm Superman
You've got me flying high
Baby say my name just one more time

You love Lenny Kravitz
I've got to have Atlantis,
Isn't it ironic you and me
You wear Italian leather
My polyester suits me fine
It's inevitable we're gonna disagree
It's no secret girl we're different

It's no secret
Girl, we're different
It's not like we don't know
Every single hesitation
All goes out the window

REPEAT CHOURS TWO TIMES

When you say my name
When you say my name
When you say my name
