

Emerson, Lake & Palmer, Love Beach

Now that the coast is clear,
I'm moving out of here.
It's time to disappear - with you,
to where the skies are blue.
I want you by my side,
don't look so mystified.

You know I said I'd
always take you to love beach.
Out of reach of the eagles eyes tonight
we can make it to love beach.
Where pirate moons, throw silver spoons
across the waves to you.

Back when it all began,
I was your highway man.
Now I've got a different plan
For you.

And me beside the deep blue sea
the way it's meant to be.
Oh you'll believe me
When you see the ocean roll up
and the sun turn a mighty red.

You can walk love beach forever
Till it lives inside your head .. I said
I want you by my side
I'll keep you satisfied
My love won't hide.

We can make love on love beach
out of reach of the lion's claws tonight.
We can make love on love beach
I want your love, with the stars above
down on love beach.

I'm gonna make love to you, on love beach
Make all your dreams come true, on love beach
Gonna make love to you, on love beach
Gonna make your dreams come true, on love beach
Gonna make love to you, on love beach...
