

Emerson, Lake & Powell, The Score

What's your game
Alright you've got it
Take your aim
Alright you shot it

It's been so long your welcome back my friends
To the show that never ends

Do you know the score
Alright I hear you
I would make a play for sure
If I could only get near you

It's been so long your welcome back my friends
To the show that never ends

What's your name
I can't forget it
I've been there and back again
And I will never regret it

It's been so long your welcome back my friends
To the show that never ends
