

# EMF, Long Summer Days

Long hot summer days  
Travelling out far  
This driving music, makes us feel  
More than we ever are  
Trying hard to get away from you  
Trying hard to get away from you  
Long hot summer days  
Travelling out far  
This open window  
Make us feel, more than we ever are  
Trying hard to get away from you  
But sure enough, I'm falling apart  
Out you go too far  
Stay where you are  
You're riding high, but when you fall  
You're dead  
You'll lose your head  
And when you fall, you'll fall so far  
Out of here, you don't know where you are
