

EMF, Shining

I met you on a rollercoaster

Drive by shooting

In a big black roadster

- It felt so good

We danced in clubs

In ballroom gowns

Lined them up and all fell down

- It felt so good

We played our cards for the promised land

Walked on air and you took my hand

- It felt so good

It met you where our worlds collide

No-one could touch us side by side

- It felt so good

Now you see it, now you don't

Maybe get it, maybe you're wrong, maybe you're right

Now you see it, now you don't

How could you lose it

When you shine so bright, when you feel so right?

I loved you with a 45

A bullet jig at a roadside jive

- It felt so good

We chased a demon through the night

And laced our dreams with neon lights

- It felt so good

We lost our heads in a winning streak

Touched the sun and felt the heat

- It felt so good

I loved you a 45, a cadillac

And we got away alive

- It felt so good

Good won't last

Now you see it, now you don't... Etc

When you shine so bright, when you feel so right?

What did you feel in your drunken haze

Did you feel better, than your better days

- When you shine so bright?

How did you feel on your higher plain?

How did you feel and would you do it again

- When you shine so right?

I met you on a rollercoaster

Drive by shooting

In a big black roadster

- It felt so good

We danced in clubs

In ballroom gowns

Lined them up and all fell down

- It felt so good

We played our cards for the promised land

Walked on air and you took my hand

- It felt so good

I lost you to a dollar deal

I didn't know if it was real

- It felt so good

Good won't last

Now you see it, now you don't... Etc

When you shine so bright, when you feel so right?
