

# Emigrate, Blood

Monsters in the dark  
Bloodlust fever mark  
Contrast not the date  
Love lust losing faith

Hope comes in moving waves  
Jesus Christ, here to save  
Dazzling then I hide  
'cause that would be like suicide

Red in every book  
Signs everywhere I look

Blood, feel my veins explode  
Blood, getting close to fire  
Blood, genetically transforming  
Blood, overload

Poison in my mind  
People fight genocide  
Life live name your price  
Commercial world, free advice

Losing all control  
Now you are illiable  
Johnny just lost his soul  
The other kids fill the hole  
Yah!

Blood, feel my veins explode  
Blood, getting close to fire - I'm getting higher  
Blood, I'm getting higher  
Blood, I'm getting higher  
Blood

Losing all control  
Losing all control  
Losing all control  
Losing all control

Blood, feel my veins explode  
Blood, getting close to fire - I'm getting higher  
Blood, I'm getting higher  
Blood, I'm getting higher  
Blood, I'm getting higher  
Blood, feel my veins explode  
Blood, getting close to fire  
Blood, genetically transforming  
Blood, overload
