

# Emil Lassaria, Summer Sun (ft. Caitlyn)

I never thought that I could love you so much  
Until you showed how deep is your love, is your love  
The summer when you kissed me for the first time  
It felt so good that I could not sleep anymore

It's summer in my heart  
Uh in my heart

I guess I found my love  
I was so blind, it was so close  
When I saw at my door  
I knew that it was you

There are the summer nights  
You and I it's paradise  
Hope you won't do me wrong  
Feel in love, I feel in love

It's summer in my heart  
Uh in my heart

I never thought that I could love you so much  
Until you showed how deep is your love, is your love  
The summer when you kissed me for the first time  
It felt so good that I could not sleep anymore
