

Emilia, A Good Sign

Yes this is a good sign
this is a good sign
come on come on
it's good sign, it's a good sign (2 times)
I give it you
You're my king and I am your queen
And everything will be so right!

Baby, baby, baby
The day has begun
Butterflies are flying
And birds are singing
Can you feel the rhythm
The rhythm of the world
It's out there waiting
Waiting for you and me

CHORUS

It is a good sign
Yes it is a good sign
This feeling came so suddenly
I don't know if it's right for me
But it is a good sign
Yes it is a good sign
You're my king and
I'm your queen
And everything will be so right

Baby, baby, baby
The sky is so blue
The tiny cloud is smiling
And the sun is for you
We'll make our own music
And let the wind cool us
Honey don't you know
That this is real life

CHORUS

It is a good sign
Yes it is a good sign
This feeling came so suddenly
I don't know if it's right for me
But it is a good sign
Yes it is a good sign
You're my king and
I'm your queen
And everything will be so right

BRIDGE

Let the phone ring -
(Let the neighbours fight)
Let the ice melt -
(Let the bugs bite)
Let the bus leave -
Leave the radio on

Let the phone ring -
(Let the neighbours fight)
Let the ice melt -
(Let the bugs bite)
Let the music play -
Leave the radio on
'Cause you know
this day is for me

CHORUS
It is a good sign
Yes it is a good sign
This feeling came so suddenly
I don't know if it's right for me
But it is a good sign
Yes it is a good sign
You're my king and
I'm your queen
And everything will be so right
