

Emiliana Torrini, Fireheads

Somebody's got a long way to go.
You're not sitting by the phone no more.
You're gonna throw it away, crash it on a rock.
Yeah, so you can live your life.

Mmm, are we going crazy?
It's not fair to say we wasted time,
In my view we just used it all up.
It's not fair to say we wasted time,
In my view we just used it all up.

Mmm, what hurts you hurts me too.
I find it hard to make right.
I know I've been a pain lately,
That I failed in every test - oh, I did wrong!

Oh man, what are we seeing here?
Life's changed all!
We share a similar firehead so there's nowhere to go.

Lost change and things I've braved.
Somewhere we got lost and can't be seen.
There's a hard wind blowing down our house,
Once that's gone it can't be found.
I thought you'd keep me warm,
But I was sure I was wrong.

Oh man, what are we seeing here?
This changed all!
We share a similar firehead so there's nowhere to go.
Oh man, what are we seeing here?
Life's changed all!
We share the same firehead so there's nowhere to go.
