

# Emilie Autumn, Faces Like Mine

You say you're curious  
Can't leave a thing to your imagination  
I wish you'd close your eyes  
But oh you seem so serious  
I should enjoy the sweet interrogation  
You start to hypnotize me  
I should know by telling you  
I'm flattered by your interest  
Who am I talking to?  
Could be the demon with a mask  
Why should I trust in you?  
I don't feel safe  
I never did  
But what else can I do  
But what you ask?

Chorus:  
Think of your darkest night  
Think of your soul alone  
If you can bear the sight  
Think of the love you'll never know  
Yes, it's unusual  
To live your life this way  
All I can say  
Maybe that's why you don't see  
Faces like mine every day

You'd like to stir it up  
Just like a sight forgotten 'til remembered  
I didn't ask for this  
But still you hold me in your gaze  
And from my lips  
The moments I have captured  
Still I'm in reminiscence  
From a place you'll never know  
I find the strength to tell you things I hardly ever show  
My mirror holds your severed tongue  
But in your amber eyes  
I see the the questions never end  
I never could disguise  
So why pretend?

Chorus

Who will forgive me?  
No one knows I've done wrong  
Won't you believe me?  
'Cause I won't last that long  
No, I  
I wanna be quiet now  
All alone  
Back to my shadow  
I'm gonna hide behind  
The trouble in my mind

You say you'll stay around  
You've finally found the answer to my story  
Congratulations, love  
So go ahead, decipher me and  
Solve the puzzle if you need the glory  
I wish I could be of your kind  
I'd to be the one  
To tell you how much you don't know  
It isn't what I've done

But rather what I hold inside  
Even if I give up  
I won't be victim to your game  
You're only free when you have nothing left

Chorus

Every day...
