

# Emily Osment, Found out about you

We were picture perfect  
Flawless on the surface  
We were walking on a straight line  
We were automatic  
You seemed so fanatic  
I was confident and wide-eyed  
Tough time, watched us come undone  
You found someone

Tell me why I think about you  
Tell me if you think about me  
And tell me when you touch her is it really love or just another fantasy?  
Tell me does she make you laugh  
Tell me does she make you move  
And tell me does she get you, take away your breath  
Just tell me that it can't be true  
What I found out about you

It feels like a nightmare  
To see your hands in her hair  
You seem happy ever after  
And I'm stuck in denial  
I can't take a smile  
You play innocent  
It's so damn hard  
Slow down, I want back what's mine  
Can we rewind?

Tell me why I think about you  
Tell me if you think about me  
And tell me when you touch her is it really love or just another fantasy?  
Tell me does she make you laugh  
Tell me does she make you move  
And tell me does she get you, take away your breath  
Just tell me that it can't be true  
What I found out about you

So much for happy endings  
So much for miracles  
So much for trusting you  
It feels so typical  
I miss you  
We were picture perfect  
Flawless on the surface  
We were walking on a straight line

Tell me why I think about you  
Tell me if you think about me  
And tell me when you touch her is it really love or just another fantasy?  
Tell me does she make you laugh  
Tell me does she make you move  
And tell me does she get you, take away your breath  
Just tell me that it can't be true  
What I found out about you

And tell me does she get you, take away your breath  
Just tell me that it can't be true  
What I found out about you
