[Verse 1] [Eminem]

Click click boom, just as soon as we hit the room

You can hear 'em holla Goon Squad in this bitch

Let me hear you holla Goon Squad in this bitch

Let me hear you holla Runyon Ave. in this bitch

So who am I gonna call on when I ain't got them boys with me

And the situation gets a little sticky

I'ma dial 911 like a mufuckin' punk, fuck that,

(blu bluh) I'ma call that rude boy from Detroit Trick Trick

Quick come pick me up, bring them guns

Come to the club, meet me out front

There's some chump up in this bitch

Poppin' some junk cause he's drunk

And we may have to fuck his ass up

Cause uh somethin' smells a lil fishy

And I don't like the way his boys keep lookin' at me

So homie come get me, chedda boys what up though I see you

Rock Bottom, yea I see you, all my Detroit people

Where you at man, let me see them hands in the sky

Detroit mufuckas till we die

[Chorus - Eminem]

wheres my gangstas and all my thugs?

Through them hands up and show some love

And I Welcome u to Detroit City

I said welcome to Detroit City

Every place everywhere we go

Man we deep everywhere we roll

Ask around and they all know Tricky

Ask whats good then they all say Tricky

[Verse 2] [Trick Trick]

Homie its been a long time comin' and I'm straight with that

Marshall call me 50 ??? and laced the track

This the beat you hear it bangin', he produced it himself

My bad almost forgot to introduce myself

My name is Trick Trick, head of the Goon Squad

And gangsta, been bangin' the underground since 95 we're bangin

Elected to be the villain, and certified a menace

Holdin' it down since I paroled, up outta prison

You heard about me, you just didn't know it was me

All the treacherous, evil deeds of the D you ever see yeah that was me

Pickin' that kid up in the game, I just wasn't chasin' the fame

I been chasin' the paper product and givin' lames the pain

Accusations of violence you know you done heard of that

A quarter of a million dollars for beatin' a murder rap

And my boy holdin' me up, Shady done put it out

Trick Trick and Eminem, Detroit thet's go

[Chorus - Eminem]

wheres my gangstas and all my thugs?

Through them hands up and show some love
And I Welcome u to Detroit City
I said welcome to Detroit City
Every place everywhere we go
Man we deep everywhere we roll
Ask around and they all know Tricky
Ask whats good then they all say Tricky
[Verse 3] [Trick Trick]
Ayo Em, you ever need one of these weapons come get it
From now on every beef that you get in homie I'm in it
I been ridin' for this city, whether wrong or right
I been whippin' on mothafuckas for the longest time
So its evident, its time for Trick to get it fast
The public, see they appreciate my criminal past
Authorities tried to stop me but they couldn't keep up
Got a fan base thats bigger than an average star
I'm satisfied with it bein' my time to shine
And I freak from the precinct for violent crimes
I ain't sayin' the shit that I'm sayin' so girls can feel me
Only speakin' on what I know so the world can hear me
So peace to Jimmy and Dre for signin' my nigga
He reached back to Detroit and grabbed a winner
So the gangstas and thugs, we embrace with love
And beat the hell outta anyone that fucks with us
[Chorus - Eminem]
wheres my gangstas and all my thugs?
Through them hands up and show some love
And I Welcome u to Detroit City
I said welcome to Detroit City
Every place everywhere we go
Man we deep everywhere we roll
Ask around and they all know Tricky
Ask whats good then they all say Tricky
[Outro] [Trick Trick]
Yeah. Trick Trick
