

Emirsian, So Near

Sometimes I feel like I wanna leave this place
To seek and hide
You may say every day
Where will he stay tonight
I could be even here
I know I should be so near
My worst fear
Please give me a second chance
The first one counts as a faked romance
I fell deep down
The first time you were around
Now I just sit on the ground in your way
I could be even here
I know I should be so near
My worst fear.my worst fear.goes by
Over and overagain
Old pictures open in my head
The day darkens down and goes away
It will never be the same again
