Emjay, In Your Arms

Do you remember the first time
The day you came into my life
Do you remember the first time
We danced together all night

I wanna be with you everyday
I wanna be with you night and day
Wanna be with you all my life

Take me in your arms
And find the love you know I'm feeling
Take me in your arms

I steal your heart away

Just tell me what is on your mind
I know there's something not right
Just tell me what is on your mind
You know............ won't you fight

Take me in your arms
I know that you love me
Take me in your arms
I know that you want me
