

# Emm Gryner, Santa Monica

What are you doing out in Santa Monica?  
You said you were tired of the sun  
You miss the winter here, snow fell beside my tears  
And I still dream of you

You dodged the cops through Santa Monica  
Our imaginary kids have gone to bed  
I missed my chance with you, thinking I could still dance with you  
'Cause I still love you

But you've got a girl in your bed and a gun to your head  
You're in love in the USA  
You've got a girl in your bed and a gun to your head  
You're in love (X2)

You rise and set her sun in California  
But you're different when she's standing in the room  
How quickly we forget the soulmates we've not yet met  
And the ones we used to know

'Cause you've got a girl in your bed and a gun to your head  
You're in love in the USA  
You've got a girl in your bed and a gun to your head  
You're in love (X4)

Oh say can you see I'm losing you  
Oh say can you see I'm losing you
