

Emma Steinbakken, This One's On Me

Maybe it was for the best
The dog the house was just a dream
Maybe I'm being upset
cause you're not really here with me

You got your reasons
And I got my reasons too
You go to paris
And I paint the living room
Guess I got used to
(the) Things that we used to do

And you made other plans
When mine was you

(So) Raise your glass if
you've been hurt or broken
thinking love is hopeless
Then this one's on me

Yea raise your glass to
The ones you can't get over
And never got the closure..
That you need (to be free)
Then this ones on me

Maybe I want to forget
The state of mind you put me in
Cause then it's easier to let
myself go out and feel again

Cause I got my feelings
And you got your feelings too
You took forever
While I spent my time on you
I drink to remember
The things that we used to do

And you made other plans
When mine was you

(So) Raise your glass if
you've been hurt or broken
thinking love is hopeless
Then this one's on me

Yea raise your glass to
The ones you can't get over
And never got the closure...
That you need (to be free)
Then this ones on me

Oh ooh oh yeah oh ooh yeah yea
This one's on me

Oh ooh oh yeah oh ooh yeah yea
This one's on me
