Emmylou Harris, Beyond The Blue Ft. Patty Griffi

Away beyond the blue Away beyond the blue One star belongs to you One star belongs to you And every breath I take And every breath I take I'm closer to that place I'm closer to that place Yeah baby, I'm gonna meet you there On the outskirts of the sky Yeah baby, I'm gonna meet you there And we will fly Away beyond the blue Away beyond the blue One star belongs to you This life is but a dream This life is but a dream Go gently down the stream Go gently down the stream
