

# Emmylou Harris, Brand New Dance

(Paul Kennerley)

Darlin' you're tired  
I can see in your eyes  
I know how you feel  
We've been together  
Too long to conceal  
What's in our hearts  
Maybe we should part  
But after so many years  
That would only bring loneliness  
Sorrow and tears  
And anyway...

I never would  
Never could  
Never will ever kill what's between us  
So let's try again  
We'll start a brand new dance  
Between old friends

There will always be days  
When it don't seem to pay  
When it just doesn't rhyme  
Well, that's bound to happen  
Some of the time  
Our best days aren't gone  
We don't need to move on  
Well, maybe we should try  
But I don't think you could take it  
And neither could I  
And anyway...

I never would  
Never could  
Never will ever kill what's between us  
So let's try again  
We'll start a brand new dance  
Between old friends

Darlin' come here  
Love's not disappeared  
You're just feelin' low  
Well, let me tell you my darlin'  
That's a feelin' I know  
It don't mean too much  
We just got out of touch  
Well, it's easy to change  
'Cause lovin' you's not too hard to arrange  
And anyway...

I never would  
Never could  
Never will ever kill what's between us  
So let's try again  
We'll start a brand new dance  
Between old friends

We'll start a brand new dance  
Between old friends  
Yes, we'll start a brand new dance  
Between old friends
