

# Emmylou Harris, Red Red Rose

(David Mallett)

You may wonder if you know me  
You may wonder if I care  
Or if I'll leave you sad and lonely  
Or if I'll always be right there  
Well there's no need for doubt now darlin'  
'Cause I have come to know  
This love of ours is no common flower  
You know this love is like a red, red rose

And you may wonder about this dreamer  
If she's all you thought she'd be  
And, oh, if anything but someday  
Ever comes from lovin' me  
But hold me close and tell me darlin'  
That you have come to know  
This love I bring you is no common thing  
You know this love is like a red, red rose

When you're all caught up in sweet surrender  
Simple truth is sometimes hard to see  
Here between the tough times and the tender  
It all comes down to you and me

And you may see my heart of darkness  
I may stumble now and again  
But underneath this heart of darkness  
There's a heart that's lovin' you right till the end  
So hold me close, come hold me darlin'  
'Cause I want you to know  
This love of ours is no common flower  
You know this love is like a red, red rose

This love of ours is no common flower  
You know this love is like a red, red rose
