

# Emo Side Project, Sad Song

another sad song plays today  
days never seem to go my way  
i'm dead last again in last place  
wishing i could see your face  
using the same old lines over again  
wishing this pain would never end  
trying to find a way out of this world  
then again you're not the only girl for me

singing my heart out tonight  
because of this sad song  
i wrote for you last night  
i swear i'll never say the same thing again  
i know i'll never be the same without you here  
you know i can live on without you by my side  
and you won't see me again, again

thinking of things that i could do  
spend my nights feeling blue  
listening to emo tonight  
just like i did last night  
outside crying without you  
what else am i supposed to do, to do

singing my heart out tonight  
because of this sad song  
i wrote for you last night  
i swear i'll never say your name again  
i know i swear i'll never be the same without you here  
i wish you were right here by my side  
and i'd be with you, with you

outside it's a blue sky today  
but right when i look outside  
it suddenly turns grey  
i swear i'll never be sad again you know  
i'll try to live my life again without you here  
i'm acting like a new me and you care of nothing i say  
i'm acting like i'm happy today  
sad song is almost gone, it's gone.
