

Emo Side Project, Walking On The Beach

walking along the coast, you smile the most
out of the millions of people there
you have the best hair
and your cute little smile
i see for a while
and your cute little face
it makes my heart race
i only love you so what should i do
the sky is turning blue and i love you

walking on the beach your smile
i try to reach
hold you close to me oh baby can you see

a seagull just went by
and it pooped in my eye
you stood laughing by
your smile it makes me die

when i have the worst days
you walk my way
it all suddenly goes away
i love you
