

Empires, Hold On

They're gonna take your eyes away
they might try to poison my heart
we've got to make them find us in the dark

i've started to love your way
in secret while the (?)
you've given me the greatest fate i've known

hold on
i won't let 'em take you
hold on
i won't let 'em take you

and in the twilight of escape
both of my arms guarding your waist
(?)

I've started to love your way
in secret while the (?)
you've given me the greatest fate i've known

hold on
i won't let 'em take you
hold on
i won't let 'em take you

hold on
i won't let 'em take you
hold on
i won't let 'em take you

hold on
i won't let 'em take you
hold on
