

En Vogue, It's About Love

She ran away from home at seventeen
Didn't know what it cost her dream
And mama is at home, broken hearted
He robbed a bank, stole a car and fled the scene
Didn't stop to think about family
The ones all alone and broken hearted

Ooo can't figure it out
What the world is coming to
Can't figure it out
What in the world I was gonna do
If you wanna be free
Love has gotta come from you and me
It's the only thing we got
Lets come together heart to heart

Open your mind can't you see (Open your heart, yeah)
Love works in need hear the plea
Show love to your fellow man (Show Love)
It's part of the master's plan
Its' about love

She's very young and cries from daddy's touch
Disillusioned by life she sings too much
And she lives her days broken hearted
He was a soldier at war for me and you
Now he waits in line beggin for food
A soldier who stands broken hearted

Ooo can't figure it out
What the world is coming to
Can't figure it out
What in the world I was gonna do
If you wanna be free
Love has gotta come from you and me
It's the only thing we got
Lets come together heart to heart

Open your mind can't you see (Open you heart)
Love works in need hear the plea (Someone's in need)
Show love to your fellow man (Show love)

Please, somebody tell me, what's happening to humanity
Tell me what will be our destiny
When right is so wrong
And hate is so strong
We cannot heal the world without love

Open your mind can't you see (Open your mind)
Love works in need hear the plea (Hear the plea)
Show love to your fellow man (Show love)
It's part of the master's plan (It's part of)
Its' about love

Open your mind can't you see (It's about love, all about love)

Show love to your fellow man (Show love)
