# Endless Struggle, Stay Away

You have seen us all here, you've seen us their
Spiky jackets and fucked up hair
I've always seen the way that you glare
fucked up grins and fucked up glares

so what you want, or what you do
Does your self conscious bother you
about where you've gone, or what you've done
You better learn to turn your head and run

Don't you tell me how to live my live
I live my life for me
Don't you tell me what to do
Just stay away from me

(2x)
Don't you tell me how to live my live
I live my life for me
Don't you tell me what to do
Just stay away from me

You have seen us all here, you've seen us their
Spiky jackets and fucked up hair
I've always seen the way that you glare
fucked up grins and fucked up glares

I live my life for me
So stay away from me
