

Endo, The Program

you better get with the program
in your fuckin' head
'cause the life you see is left for dead
with the program in your fuckin' head
yeah the life you see is left for dead
you're indecisive
gone too far
stuck in denial
which leaves you
scarred
some say life is dead, shot back in my head
some say your life is dead, shot back in my
you're indecisive
gone too far
stuck in denial
that leaves you
scarred
once again the front is ability
i can't realize what's inside of me
i feel the break coming through the drop zone
my life in the far zone
i can't wait no inside i feel the heat
the kid's on i keep my seeds in me
i can't wait to be the one
it's crampin' my vibe grabbin' the wrench
you better get with the program
in your fuckin' head
'cause the life you see is left for dead
with the program in your fuckin' head
yeah the life you see is left for dead
you're indecisive
gone too far
stuck in denial
that leaves you
scarred
