

Engelina, Chemistry

Let the music be a part of you
When we're flying
When we're flying
Let the music be a part of you
When we're flying
Like we do

I feel it intensively
Something I can't explain
The pulse inside of me
It hollers out your name
Right in this beat
Baby this is insane

It's all inside of me
It's something I can't explain

Let the music be a part of you
When we're flying
When we're flying
Let the music be a part of you
When we're flying
Like we do

When we're flying
When we're flying
