

# Engelina, Talk To Me

When I'm here for you won't you show me through  
This silence can't go on  
You don't have to turn away and leave me alone  
When I'm here for you won't you show me through  
This silence can't go on  
You don't have to turn away and leave me alone

Speak to me  
I have to understand  
What's going on  
Do you feel the same  
Tell me don't wait till the morning breaks  
I need to know  
I need to know

When I'm here for you won't you show me through  
This silence can't go on

You don't have to turn away and leave me alone  
When I'm here for you won't you show me through  
This silence can't go on  
You don't have to turn away and leave me alone

When I'm here for you won't you show me through  
This silence can't go on  
You don't have to turn away and leave me alone  
When I'm here for you won't you show me through  
This silence can't go on  
You don't have to turn away and leave me alone

And leave me alone  
When I'm here for you won't you show me through  
This silence can't go on  
You don't have to turn away and leave me alone
