

Engelina, Walking In The Sky

When you walking in the sky
Heaven's holding hands with you
So you better learn to fly
Before you're falling through
Cause I'm walking in the sky
Heaven's holding hands with me
Now I think I've learned to fly
I'm happy just to be
I'm happy just to be
I'm happy just to be

You guide me here asking the question why
I used to close every open door
I'll find the sun even on cloudy skies

I have my time and I don't need more

When you walking in the sky
Heaven's holding hands with you
So you better learn to fly
Before you're falling through
Cause I'm walking in the sky
Heaven's holding hands with me
Now I think I've learn to fly
I'm happy just to be
I'm happy just to be
Cause I'm walking in the sky
Now I think I've learn to fly
