

# Engine, Teach Me

So I belong to fortunes gone  
I'm lucky in life  
I've seen the signs and felt your mind  
I want to be high  
HEY, I love it when you teach me how to hate you  
Sweet candy smile it fades awhile  
And then you give life  
Have to forget there's nothing left  
It's all about time  
HEY, I love it when you teach me how to hate you  
HEY, I love it when you teach me how to hate you  
Look through your eyes and see your sky  
Is darker than mine  
Your charm your face  
Your lovely face you've got me inside
