

Engineers, One In Seven

Build your hopes behiind the scenes
Break between your plans and schemes
Save yourselves, escape from me
Brace against the coming wind

You're one in seven
But you're closer than me
Been left wide open
Shows we're nearer than before

Clear the way so i can breathe
Make a space so i can see
Hold the strength that's not in me
Beneath contempt or so it seems

You're one in seven
But you're closer than me
Been left wide open
Shows we're nearer than before
