

# Enrique Iglesias, She Bet The One

she bet the one  
Enrique Iglesias  
(Escape)

She wakes you up early in the morning  
She tells you baby I feel a little horny  
She brings you up and then you know you want it  
I like the way you give it girl  
Your mouth is dry  
Your heart is beating faster  
You wanna die but you're afraid to ask her  
She pops a gun  
Your prayer's already answered  
Tick tock man  
Thank you man

Don't fool yourself  
You can't stop it if you try  
And it's a bumpy ride

She be the one  
She be the drug  
She's gonna take you high, take your love  
And never get enough  
She be the one  
She be the bomb  
Watch out here she comes  
You know you're gonna get some

She hits a club  
And everybody watches  
And when she dances  
Everybody wants it  
The kind of girl you've kinda gotta watch  
She might just get away

She makes you wait  
She likes to play that kind of game  
She takes your money  
And tries to give it all away  
She makes you nasty  
And makes you wanna feel pain  
Then she'll make you want it again

Don't fool yourself  
You can't stop it if you try  
And it's a bumpy ride

She be the one  
She be the drug  
She's gonna take you high, take your love  
And never get enough  
She be the one  
She be the bomb  
Watch out here she comes  
You know you're gonna get some

You know you're gonna get some  
You know you're gonna get some  
You know you're gonna get some  
You're really gonna get some

You know you're gonna get some  
You're really gonna get some

You know you're gonna get some

She be the one  
She be the one

She be the one  
She be the drug  
She's gonna take you high, take your love  
And never get enough  
She be the one  
She be the bomb  
Watch out here she comes

She be the one  
She be the drug  
She's gonna take you high, take your love  
And never get enough  
She be the one  
She be the bomb  
Watch out here she comes  
You know you're gonna get some
