

Enrique Iglesias, Space in My Heart - feat. Miranda Lambert

Hey, tell me what I gotta say
A pick-up line, a simple phrase
Just to make you wanna stay
And no, I won't say too much too soon
Cause that's not what you're s'posed to do
And with you I'm making no mistakes

You don't love me yet, but I know you will
If you only felt half of what I feel
If you ever go, I will never change
There's a space in my heart
And it's just your shape

I want you here right next to me
Up above and underneath
Make you never wanna leave
And the walls turn to dust and the lights goin' dark
I don't care where I am, long as I'm where you are
That's just how it's gotta be
