Enslaved, A Long Time Ago

Lyrics by Grutle Kjellson 1995 Hymns were sung In the times when our people still were proud in the long gone past A long time ago Then came the disease The disease from south Deception and false knowledge Infected our minds Survival of the fittest was forgotten But still it didn't disappear Beneath the layers of a thousand years of deception Burns the ancients northern thoughts Fight! Don't let your powers disappear Our sunset shall also be our dawn They burned our temples They killed our men We shall take back What once were ours Fight! Deny not your mind Our sunset shall also be our dawn We shall once again sing Hymns from ancient times Like we did in those days A long time ago Music by Ivar Bjrnson 1995
