

# Enslaved, For lenge siden

[A Long Time Ago]

[Lyrics by Grutle Kjellson 1995]

[Music by Ivar Bjornson 1995]

Hymns were sung  
In the times when our people still were proud  
In the long gone past  
A long time ago

Then came the disease  
The disease from south  
Deception and false knowledge  
Infected our minds

Survival of the fittest was forgotten  
But still it didn't disappear  
Beneath the layers of a thousand years of deception  
Burns the ancient northern thoughts

Fight! Don't let your powers disappear  
Our sunset shall also be our dawn

They burned our temples  
They killed our men  
We shall take back  
What once were ours

Fight! Deny not your mind  
Our sunset shall also be our dawn

We shall once again sing  
Hymns from ancient times  
Like we did in those days  
A long time ago
