

Enslaved, For lenge siden

[A Long Time Ago]

[Lyrics by Grutle Kjellson 1995]

[Music by Ivar Bjornson 1995]

Hymns were sung
In the times when our people still were proud
In the long gone past
A long time ago

Then came the disease
The disease from south
Deception and false knowledge
Infected our minds

Survival of the fittest was forgotten
But still it didn't disappear
Beneath the layers of a thousand years of deception
Burns the ancient northern thoughts

Fight! Don't let your powers disappear
Our sunset shall also be our dawn

They burned our temples
They killed our men
We shall take back
What once were ours

Fight! Deny not your mind
Our sunset shall also be our dawn

We shall once again sing
Hymns from ancient times
Like we did in those days
A long time ago
