## Enslaved, For lenge siden

[A Long Time Ago]

[Lyrics by Grutle Kjellson 1995] [Music by Ivar Bjornson 1995]

Hymns were sung In the times when our people still were proud In the long gone past A long time ago

Then came the disease The disease from south Deception and false knowledge Infected our minds

Survival of the fittest was forgotten But still it didn't disappear Beneath the layers of a thousand years of deception Burns the ancient northern thoughts

Fight! Don't let your powers disappear Our sunset shall also be our dawn

They burned our temples They killed our men We shall take back What once were ours

Fight! Deny not your mind Our sunset shall also be our dawn

We shall once again sing Hymns from ancient times Like we did in those days A long time ago
