Entombed, Morningstar

Down here on the ground since it all began Experiment in moral and behavior

In spite of all imperfection I'm a fan of man The worm is my rose too

Many my name But one and the same Chaos, being And the everlasting flame!

Chorus: Phosphoros Lucifer Stand up! In praise of the morning star Phosphoros Lucifer Say it! Chief Rebel Angel Phosphoros Lucifer Stand up! In praise of the morning star

Don't get too cocky Keep yourself small Dont ever let them see, you coming

Look at me Underestimated from day one You never see me coming Im a suprise!

Solid my game We're one and the same The chaos, The being And the everlasting flame!!!

(Chorus)

Watching, Waiting Holding my breath But I'm no puppeteer The stage is set You pull your own strings now

Like butterfly wings One's they're touched They never leave the ground NO, I don't make things happen here

(chorus)

Phosphoros Lucifer Say my name! Phosphoros Lucifer Say my name! Phosphoros Lucifer Say my name!
