

Entwine, Nothing Left To Say

There's no time for you baby. No time to realize.
Our life will be wasted. You ruin it with all your lies.
Would you die for me baby. 'Cos I'm dying all the time.
I'm tired of this faking. This time I'm gonna be strong.
This time I've gotta move on.

You've laughed at me for the last time.
No more of these bitter lies.
You've laughed at me for the last time.
No more of these bitter lies.

You're in love with yourself baby.
Is it love we sacrifice? I'm so tired of this faking.
This time I'm gonna be strong. This time I've gotta move on.

You've laughed at me for the last time.
No more of these bitter lies.
You've laughed at me for the last time.
No more of these bitter lies.

No more lies. No more lies.
From now on 'til the end of time.
